

Pocahontas Lyrics

Our Home

English:

I've come across the ocean and the time has flown.
I left a place behind me that I've always known.
I left behind the cities that I know by heart,
I've left my friends behind me and we're worlds apart.

Here, in my mind's refrain,
One simple thing remains:
There isn't any place like home...

Powhatan:

My father loves this forest and each knotted tree
My mother loves the river winding towards the sea
The children love the hillside where they always play.
My family's always been here, and we'll always stay.

Here, where we can survive.
Here, in this place we thrive
We stand to live our lives in peace

All:

Here, in my mind's refrain,
One simple thing remains:
There isn't any place like home...
