

What Every Parent Needs to Know about **Makin' Music!**

Why Music? There is no activity more beneficial than music for a young child! Music can be learned before a child speaks, yet musical skills learned at young age endure for a lifetime.

Makin' Music teaches melody, rhythm, expressiveness, coordination, verbal skills, and gives children the pure enjoyment of creating their own sounds and music!

LIVE Music is best! Because young children learn by imitation, there is no substitute for music performed live in children's music classes! All Makin' Music classes feature live performance by talented singers and guitarists.

No matter what the child's age, the exciting, rewarding experience of Makin' Music creates natural stepping stones to formal music education.

Founded in 1993 and now with 20 locations in the Philadelphia area, Makin' Music has won rave reviews from critics, parents, teachers, and kids alike, including 2002 Best of Philly and 2009 Nickelodeon Parent's Pick Award.

EARLY MUSICAL TRAINING SHAPES CHILDREN'S GROWING BRAINS AND BOOSTS THEIR LEARNING POWER, AIDING IN THE DEVELOPMENT OF LOGIC, ABSTRACT THINKING, MEMORY AND CREATIVITY.

**"MUSIC IS A MORE POTENT INSTRUMENT THAN ANY OTHER FOR EDUCATION, AND CHILDREN SHOULD BE TAUGHT MUSIC BEFORE ANYTHING ELSE."
-PLATO**
